

Cleveland Road Primary School Curriculum Map – Year 6, Autumn Term 2023

	Autumn 1	Autumn 2
TOPIC	Magic, Lies & Intrigue	
KEY TEXTS	<i>The Invention of Hugo Cabret</i> by Brian Selznick <i>Cogheart</i> by Peter Bunzl <i>Clockwork</i> by Philip Pullman	
ENGLISH CRC Articles 2, 3, 5, 12, 13, 17, 28	<u>Philosophical thinking:</u> Is it ever okay to steal or lie? Should you ever hide things (feelings, items, thoughts or the truth)? Are you ever completely independent? Are there times when we need to admit defeat? Can you survive without support? Is surviving enough for us? Does resilience derive from being competitive? If you lose something precious, should you get it back via any means? What does it mean to be at peace? Does the end justify the means? Do we have to mask our grief when delivering bad news? To what extent can we be authentic? Should we try to fix everything? How hard is it to rebuild trust? If something didn't go to plan, was it worth it? When the truth is realised, should you continue to lie? What role does society play on raising children? How important is outward validation? Is it important to be remembered? To what extent are we able to shape our destiny? Whilst reading <i>The Invention of Hugo Cabret</i>, the children will develop a rich understanding of the main characters who work at a toy booth. They will develop an awareness of Hugo's day-to-day life, living in the walls of a train station and his routine of winding the clocks. The children will begin to explore the reasons as to why Hugo has to remain inconspicuous. As we delve into the text, the children will explore Hugo's notebook and understand the reasons as to why it may be precious to him. The children will then be introduced to a machine and, when a disastrous event occurs, they will empathise with Hugo and write their thoughts in response to what has just happened. As they continue through this book, the children will consider whether stealing is ever right and whether we have the right to something if it is ours, but not in our possession. Further on in the story, the children will be introduced to the first black and white films and will consider what it would have been like to be one of the first people to experience watching something like this – something that nobody had ever seen or experienced before. Towards the end of the book, the children will reflect upon Hugo's character, positioning themselves in his shoes. They will consider how he has changed, based upon what he has been through, as well as his achievements and hopes for the future.	
MATHS CRC Articles 28, 29, 30	The children will continue to develop their arithmetic, fluency and speed when working with the four different operations, this includes: word problems, fractions, decimals and percentages. As the term progresses, the children will apply their knowledge of the above to ratio and proportion, and will encounter problem solving/ reasoning involving algebra and measurement.	
SCIENCE CRC Articles 7, 8, 28, 29	<u>Evolution and Inheritance</u> Children will realise that living things have changed over time, and that we are able to learn about the past, using fossils. They will learn that fossils hold key information about the past, including about animals that roamed and inhabited the earth millions of years ago.	<u>Living Things:</u> The children will be able to describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals. They will also be able to give reasons for classifying plants and animals based on specific characteristics.

Cleveland Road Primary School Curriculum Map – Year 6, Autumn Term 2023

	Autumn 1	Autumn 2
TOPIC	Magic, Lies & Intrigue	
	The children will make the link between evolution and the characteristics that these living things have based upon the “theory of evolution” – that animals changed over time to suit their surroundings.	
COMPUTING <i>CRC Articles</i> 8, 12, 14, 16, 17, 28, 29, 30, 31, 36	<u>E-Safety</u> The children will look into how to stay safe online, focusing specifically on: settings, privacy, friends and money.	<u>Computer Science - Coding</u> The children will use <i>Scratch</i> to code and create a game, after using <i>Espresso Coding</i> and <i>Python</i> to develop their knowledge of coding.
HISTORY <i>CRC Articles</i> 9, 28, 29	<u>Changes in an aspect of Social History: Entertainment</u> Within this unit, the children will use their previous learning of various eras to identify and explain connections, contrasts and trends within entertainment and the significance of these changes. They will take on the role as historians to question sources and answer an inquiry. Furthermore, they will ensure their work can be corroborated and/or explain why their work may be contradicted by another source.	
GEOGRAPHY <i>CRC Articles</i> 10, 17, 22, 25, 27, 29, 30		<u>Mapping</u> Children will begin to use the 8 points of the compass, four figure grid references and different maps to build their knowledge of the United Kingdom and the wider world. They will use this knowledge to plan an adventure across the world.
ART <i>CRC Articles</i> 13, 17, 28, 29	<u>Portraits</u> In our art lessons, we will be focussing on self-portraits. The children will find out about a range of famous artists and learn how to draw faces using correct proportions. Throughout the lesson series, the children will create a number of artworks, including a ‘split face’ portrait, transient portraits from objects and a Picasso-style face focused on colour. They will get to grips with shading and the symbolism of portraiture.	
DT <i>CRC Articles</i> 28, 29		<u>Food Technology</u> Children will investigate a variety of breads from different cultures/regions, then design and make their favourite bread (celebrating different cultural influences of bread on European cuisine).
