

Make A Wish

(Primaryes)

Look up there, way up high
To the diamonds in the sky.
The same ones in the nursery rhymes we sing.

That's where I want to go
In a rocket, and I know
That all my dreams could become a reality.

**Whether or not I get that far,
It's good to have a dream.
Even if it seems way too large,
Nothing's an impossibility!**

**Like the starry sky at night,
In the dark, you'll find a light.
So close your eyes,
Make a wish on your lucky star.**

Time goes by and I'll age
And some dreams may shift and change,
But still I aim to travel to the stars.

Some may laugh, some might judge,
But my dreams will just not budge,
'Cause I know that it's up to me
To make it where I wanna be!

**Whether or not I get that far,
It's good to have a dream.
Even if it seems way too large,
Nothing's an impossibility!**

**Like the starry sky at night,
In the dark, you'll find a light.
So close your eyes,
Make a wish on your lucky star.**

And when I see the moon looking down and beaming,
I know I'm not alone in all my dreaming!
There's always someone else who will join your song,
There's always somewhere out there where you
belong!

**Whether or not I get that far,
It's good to have a dream.
Even if it seems way too large,
Nothing's an impossibility!**

**Like the starry sky at night,
In the dark, you'll find a light.
So close your eyes,
Make a wish on your lucky star.
So close your eyes,
Make a wish on your lucky star.**
