Newsletter 4 *Friday 6th November 2026*

Cleveland Road Primary School

Cleveland Road, Ilford, Essex, IG1 1EW

Website: www.clevelandroadpri.uk

Telephone: 020 8478 3601 (Line 1 to report an absence)

Weekly message

We hope all our families had a wonderful half term and we thank you for your support with attending our parents' evenings the week before we broke up. It is great for the children to share all their fantastic work with you.

It has been a busy week back at school for our children and they are thoroughly enjoying being back in class. We hope you enjoy reading this edition of our newsletter along with celebrating a very big birthday for Cleveland Road on next week!

Cleveland Road turns 130 years old

Next week, Cleveland Road turns 130 years old. Cleveland Road originally opened as infant and junior schools in 1896. The three-storey building was the largest erected by Ilford School Board and could accommodate 1,800 pupils.

This is a picture from a girls' class around 1910.

Diary Dates

Friday 13th November
Children in Need Day – wear spots.

Monday 16th November
School Photographer in school to take individual photos

Friday 27th November
Inset day – School closed for children

Tuesday 8th December
Christmas Dinner Day

Thursday 10th December
Christmas Jumper Day

Friday 18th December
Last day of the Autumn Term – school finishes at 1.30p.m.

Monday 4th January 2027
Spring term begins

Article of the Week

Article 30: You have the right to practice your own culture, language and religion - or any you choose. Minority and indigenous groups need special protection of this right.

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

Parking

Just a friendly reminder when dropping off and collecting your children, please be mindful not to block or park across residents' driveways. We need to make sure we keep the driveways clear, allowing residents to enter and leave their property without any disruption.

Calling All Young Writers: Enter the BBC 500 Words Challenge 2026!

Do you have a brilliant imagination, a funny story to tell, or an exciting adventure waiting to be written? Then the **BBC 500 Words Challenge 2026** is the perfect opportunity for you!

The BBC's famous story-writing competition encourages children to create an original piece of fiction in **500 words or fewer**. There are no limits to where your imagination can take you. You could write about a magical world, an unexpected journey, a mysterious creature, or even a talking piece of toast!

Taking part is a fantastic way to:

- Develop your creative writing skills
- Build confidence as a storyteller
- Let your imagination shine
- Share your ideas with a national audience
- Have the chance to win exciting prizes and recognition

Whether you already love writing stories or are keen to have a go for the first time, this competition is open to everyone. The judges are looking for creativity, imagination, and a story that captures the reader's attention.

Important Dates

Competition opens: Tuesday 29 September 2026 at 08:00

Competition closes: Friday 6 November 2026 at 21:00

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Children in Need – Friday 13th November

Next Friday is our annual BBC Children in Need Day. So wear something spotty! And bring in any money that you want to donate for the BBC Children in Need Charity. This is a special charity where children help other less fortunate children in need. Thank you.

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

Dr Bike visits Cleveland Road

Dr Bike visited our school this week for a free safety check of Cleveland children and staff's bicycles. The Doctor (actually a professional bicycle mechanic named Mathew) had plenty of patients to attend to in the Quiet Area of our playground! We had over 40 bikes over the 2 days + the school set of bikes that needed a lot of care as well! He made minor adjustments to seats and forks and frames and wheels. And replaced metres and metres of brake cable! The doctor even advised on bigger repair jobs. Thank you Dr Bike. And a big thank you to Redbridge council for paying for all these brilliant bike opportunities for our Cleveland community. Each of these bike repairs and servicing would have cost our children and staff a lot of money!

We are hoping to access additional funding in the next financial year in order to bring Doctor Bike back to work on more bikes in our school community. Over the next 2 weeks, we have cycle confidence training scheduled for Year 5 and Year 6 children to become more confident with riding a bike. Hopefully, this will make more of our children cycle daily to school.

So look out for our oldest children riding around our playground – and even on our neighbourhood roads from next week! We are sure that they will inspire other children and even school staff to get on their bikes as well!

Doctor Bike servicing and repairing some of the many colourful bikes at Cleveland.

Mr Albert, our music teacher said, "I would like to say a big Thank You to the bike mechanic, for servicing both our children and our staff bikes. He gave my own bike a full inspection, repaired the brakes, and now it rides like new. It's such a wonderful way that our school and Redbridge borough supports our local community and encourages safe, confident cycling. And it was totally FREE!"

Muhammad Yusuf Ahmad from 5PR added, "My bike needed a lot of work done. The tyres kept getting flat and the chain needed oiling to work well. I'm glad I brought my bike in for Dr Bike to fix. Now I can ride it comfortably again."

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Year 1

To begin our Autumn 2 topic, we went on a local area walk around Ilford as part of our Geography learning. Before setting off, we explored Google Maps and planned a route through Ilford, identifying landmarks and places of interest that we wanted to visit.

The children were buzzing with excitement throughout the walk and enthusiastically pointed out features of their local area. They noticed a wide variety of places, including shops, restaurants, places of worship, libraries, doctors' surgeries, shopping centres, supermarkets, barbers, and much more. They were particularly intrigued by the artwork displayed in the subway and enjoyed seeing the mural inspired by the woolly mammoth, which was designed by children from Cleveland Road Primary School.

The trip sparked great interest and curiosity, with many children demonstrating an impressive knowledge of their local community. It provided a fantastic starting point for our learning and helped us to develop a deeper appreciation of the area in which we live. We are now excited to delve further into the history of Ilford and explore how it has changed over time.

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

Tajus 1RB – “I saw the exchange and lots of shops”

Zayan 1Z – “I saw churches, mosques and Ilford train station”

Rajveer 1SB – “In Ilford there are lots of bus stops”

Eliza 1B – “I’ve seen the mosque and doctor’s surgery before”

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Year 2

What a fabulous finish to our Year 2 English topic! Over the last half term, we have been exploring *The Dot* by Peter H. Reynolds, a wonderful book about making your mark and believing in yourself. Inspired by its message, the children wrote, edited, and published their very own motivational speeches. After lots of practice, they courageously performed them to another Year 2 class with fantastic confidence. Alongside their writing, the children created a beautiful art gallery, which was on display during our parents' evening. We are so proud of how hard they have worked to make their mark!

"I can't wait to show my mum my art work in the gallery. She will be so proud of me!" Malaya 2KA

"I needed to change my voice more in my speech." Inaaya 2E

"I feel like an artist just like Vashti!" Syed 2S

"That was a great speech! She used eye contact and gestures." Adhveek 2E

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

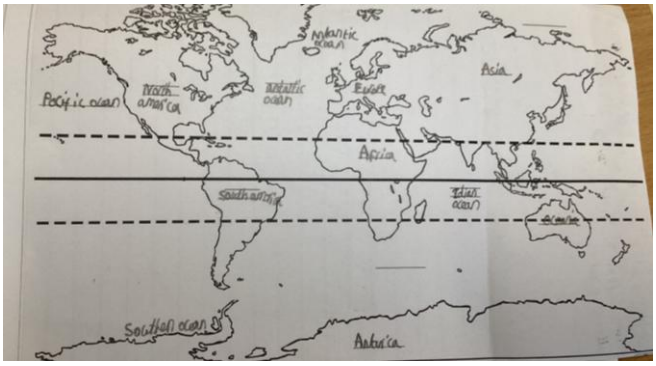

Year 2

This week, our fantastic Year 2 geographers went on a virtual trip around the world as we discovered the 7 continents and 5 oceans. Using world maps, the children put their mapping skills to the test to locate each one, even identifying exactly where we live! We explored what makes each continent unique, discovering the largest and smallest landmasses and researching fascinating details. We are so proud of our young explorers and their growing curiosity about the wider world!

“I learnt that the word Pacific means peaceful.” Warisha, 2GA

“The Pacific Ocean is the largest ocean” – Azaf 2KA

“Europe is the closest continent to Africa” – Malak 2KA

“We live in Europe” – Aleezeh 2KA

“I would love to visit Antarctica because there is so much snow and ice” – Haider 2S

“I f could live in a different continent, I would choose Asia because it’s nice and hot” – Mohammed – 2E

“We live in England which is in the continent of Europe and I learnt that there are five oceans.” Arya, 2GA

“To travel from Europe to North America, you need to cross the Atlantic Ocean” – Shabbir 2KA

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Year 3 – A Journey into the Dark Forest

We are incredibly proud of our Year 3 children and their fantastic poetry writing this week!

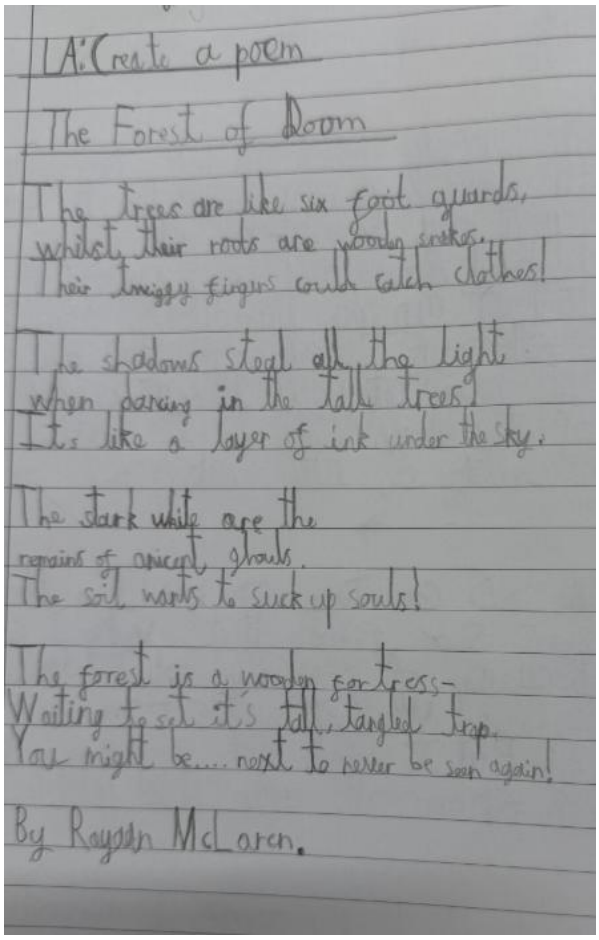

The children have been exploring how to create atmosphere and describe a mysterious, dark forest setting through the power of poetry. They have shown amazing creativity and imagination, using carefully chosen vocabulary to bring their forests to life.

We have been particularly impressed by their use of figurative language, including similes and metaphors, to make their descriptions more vivid and engaging. The children experimented with similes such as *"The trees stood like giant shadows"* and metaphors such as *"The forest was a dark, tangled maze."*

They also explored how to use their senses to describe the sights, sounds and feelings of being deep inside a mysterious forest, helping readers to imagine they were right there!

The children's enthusiasm, creativity and willingness to experiment with language have been wonderful to see. Their finished poems were truly amazing, and they should feel incredibly proud of their achievements.

Well done, Year 3! You are becoming fantastic young poets!

LA: Create a poem

The Forest of Doom

The trees are like six foot guards,
whilst their roots are wooden snakes.
Their twiggy fingers could catch clothes!

The shadows steal all the light
when staring in the tall trees.
It's like a layer of ink under the sky.

The dark white are the
remains of ancient ghouls.
The soil wants to suck up souls!

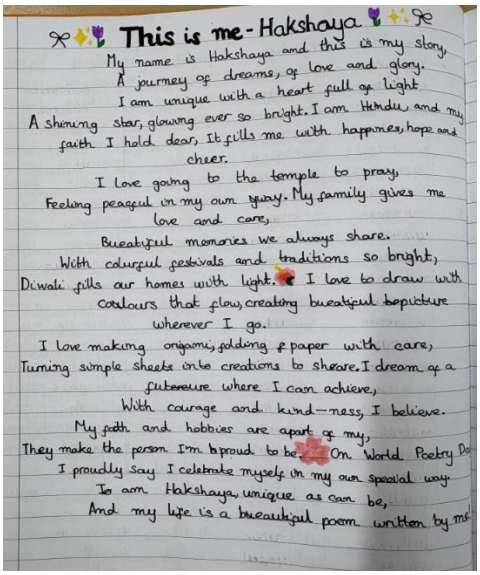

The forest is a wooden fortress-
Waiting to set it's tall, tangled trap.
You might be... next to never be seen again!

By Rayden McLaren.

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

Year 5 – Poetry Day

To celebrate National Poetry Day year 5 wrote poems exploring who they are and what makes them unique. They expressed themselves through the pieces, exploring their cultures, personalities, religions and hobbies. Through their poetry the children expressed their feelings, shared their experiences and celebrated what makes them special. Some even taking it a step further by writing about other topics that were of interest to them, such as a poem about finches, relating to the book we are currently studying in English, "I am Henry Finch".

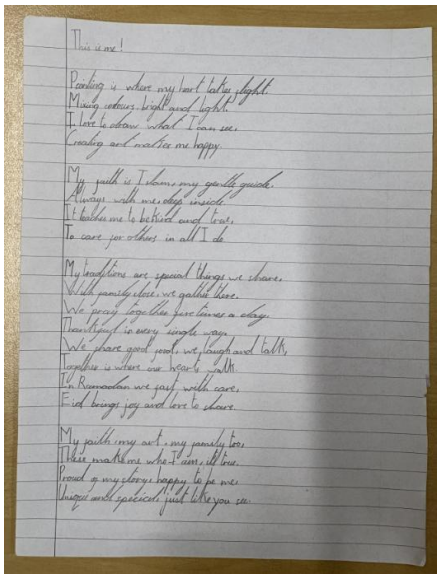

This is me - Hakshaya

My name is Hakshaya and this is my story.
A journey of dreams, of love and glory.
I am unique with a heart full of light
A shining star, glowing ever so bright. I am Hindu and my faith I hold dear, It fills me with happiness, hope and cheer.

I love going to the temple to pray,
Feeling peaceful in my own way. My family gives me love and care,
Beautiful memories we always share.
With colorful festivals and traditions so bright,
Diwali fills our homes with light. I love to draw with colours that flow, creating beautiful bopicture wherever I go.

I love making origami, folding paper with care,
Turning simple sheets into creations to share. I dream of a future where I can achieve,
With courage and kind-ness, I believe.
My faith and hobbies are apart of my,
They make the person I'm proud to be.
On World Poetry Da
I proudly say I celebrate myself in my own special way
To am Hakshaya, unique as can be,
And my life is a beautiful poem written by me!

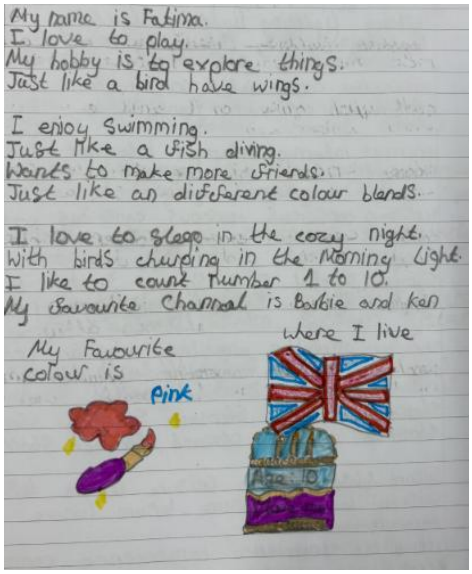

This is me!

Reading is where my heart takes flight
Mixing colours, bright and light
I love to draw what I can see.
Creating art makes me happy.

My faith is I share my gentle guide.
Always with me, deep inside.
It teaches me to believe and love,
To care for others in all I do

My traditions are special things we share,
With family close we gather there.
We pray together five times a day,
Thankful in every single way.
We share good food, we laugh and talk,
Together is where our hearts walk
In Ramadan we fast with care,
Eid brings joy and love to share.

My faith, my art, my family too,
These make me who I am, it's true.
Proud of my story, happy to be me,
Unique and special just like you see.

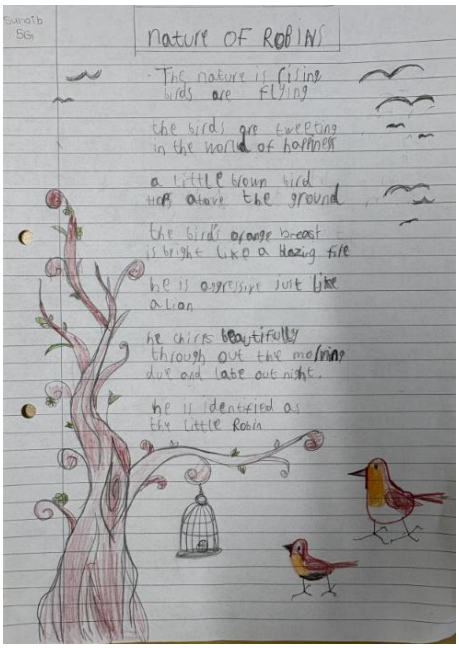

My name is Fatima.
I love to play.
My hobby is to explore things.
Just like a bird have wings.

I enjoy swimming.
Just like a fish diving.
Wants to make more friends.
Just like an difference colour blends.

I love to sleep in the cozy night.
With birds chirping in the morning light.
I like to count number 1 to 10.
My favourite channal is Barbie and Ken

My favourite colour is Pink

Where I live

Sumaiya 5G

Nature OF ROBINS

The nature is filing birds are flying

the birds are tweeting in the world of harmony

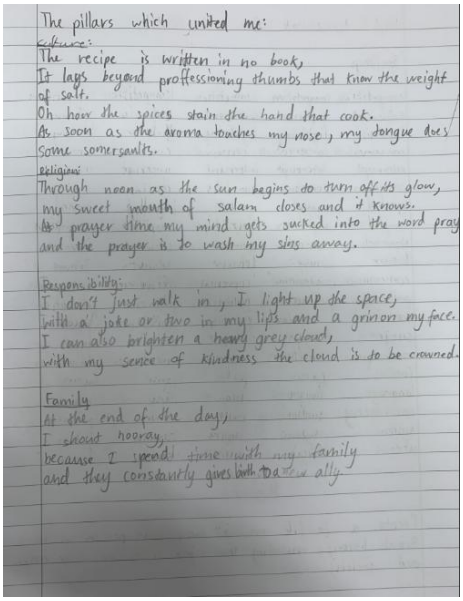

a little brown bird hop above the ground

the birds orange breast is bright like a blazing fire

he is aggressive just like a lion

he chirps beautifully through out the morning due and late out night.

he is identified as the little Robin

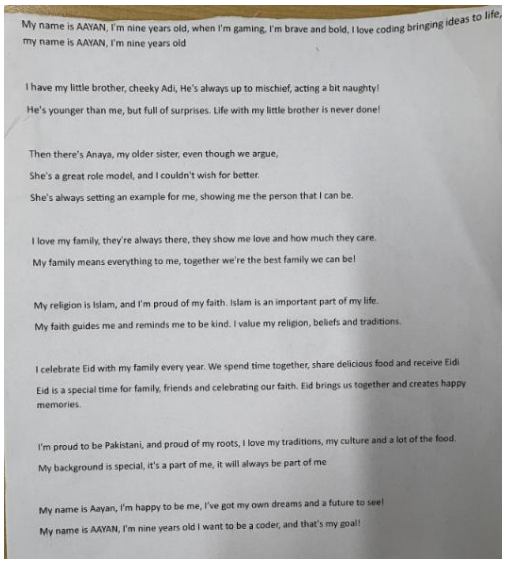

The pillars which united me:

Culture:
The recipe is written in no book,
It lays beyond professioning thumbs that know the weight of salt.
Oh how the spices stain the hand that cook.
As soon as the aroma touches my nose, my tongue does some somersaults.

religion:
Through noon as the sun begins to turn off its glow,
my sweet mouth of salam closes and it knows.
As prayer time my mind gets sucked into the word pray and the prayer is to wash my sins away.

Responsibility:
I don't just walk in, I light up the space,
With a joke or two in my lips and a grin on my face.
I can also brighten a heavy grey cloud,
with my sense of kindness the cloud is to be crowned.

Family
At the end of the day,
I shout hooray,
because I spend time with my family
and they consistently gives with love ally

My name is AAYAN, I'm nine years old, when I'm gaming, I'm brave and bold, I love coding bringing ideas to life, my name is AAYAN, I'm nine years old

I have my little brother, cheeky Adi, He's always up to mischief, acting a bit naughty!

He's younger than me, but full of surprises. Life with my little brother is never done!

Then there's Anaya, my older sister, even though we argue,

She's a great role model, and I couldn't wish for better.

She's always setting an example for me, showing me the person that I can be.

I love my family, they're always there, they show me love and how much they care.

My family means everything to me, together we're the best family we can be!

My religion is Islam, and I'm proud of my faith. Islam is an important part of my life.

My faith guides me and reminds me to be kind. I value my religion, beliefs and traditions.

I celebrate Eid with my family every year. We spend time together, share delicious food and receive Eidi

Eid is a special time for family, friends and celebrating our faith. Eid brings us together and creates happy memories.

I'm proud to be Pakistani, and proud of my roots, I love my traditions, my culture and a lot of the food.

My background is special, it's a part of me, it will always be part of me

My name is Aayan, I'm happy to be me, I've got my own dreams and a future to see!

My name is AAYAN, I'm nine years old I want to be a coder, and that's my goal!

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Year 6 – Black History Month

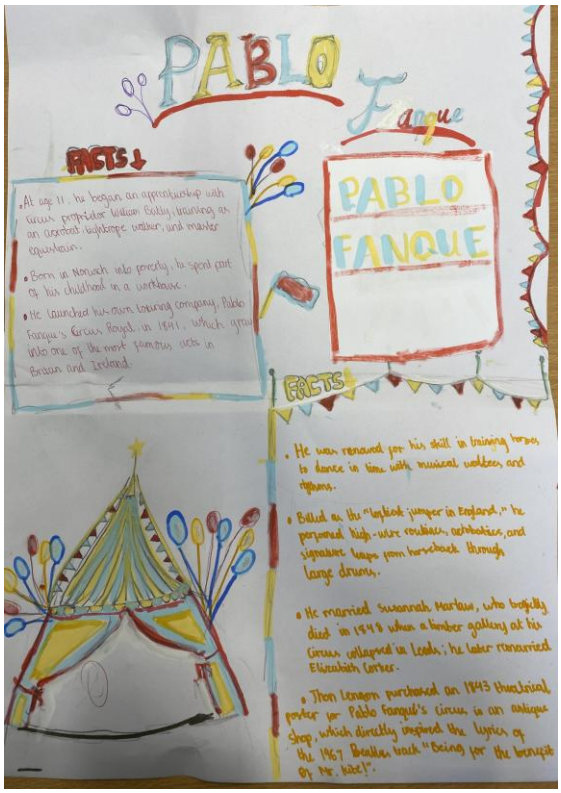

Year 6 Celebrate Black History Month

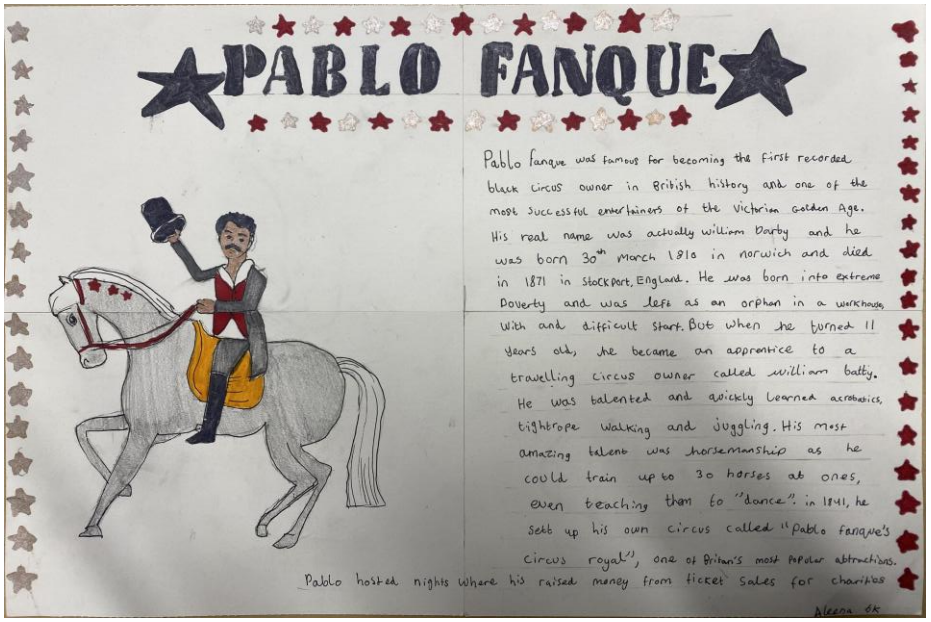

To celebrate Black History Month, Year 6 pupils completed a creative homework project exploring the life and achievements of Pablo Fanque, a pioneering figure in British circus history.

Pupils researched his story and presented their findings through informative, eye-catching posters. Their work combined historical facts, carefully organised information and colourful illustrations to showcase their learning. From hand-drawn portraits and circus scenes to creative layouts and interesting facts, the pupils demonstrated impressive effort, creativity and attention to detail.

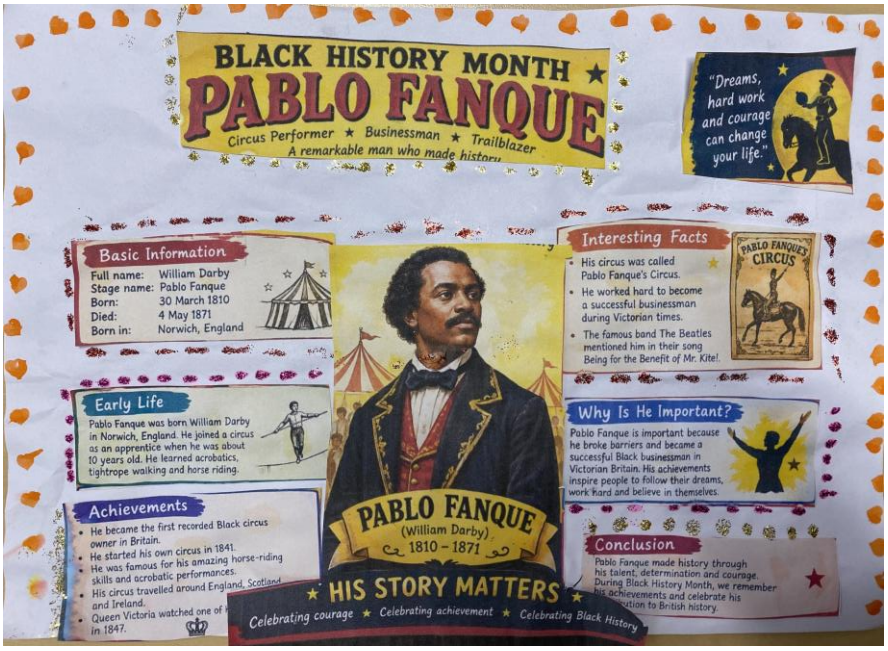

The project encouraged pupils to look beyond the history they encounter every day, recognising the achievements and contributions of Black individuals and reflecting on the importance of celebrating diverse stories and perspectives.

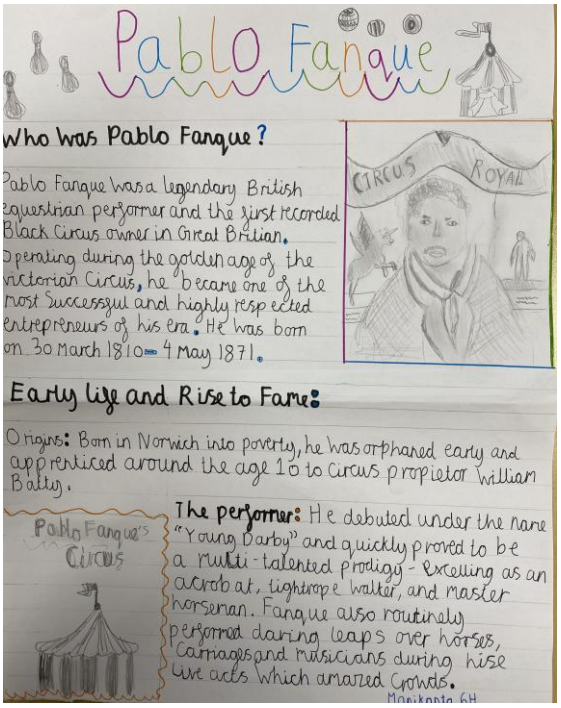

We are incredibly proud of the enthusiasm and dedication Year 6 showed in their work. Their fantastic posters provided a wonderful opportunity to share their learning and celebrate Black History Month as a school community.

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

"I found it fascinating that at age 11 he began an apprenticeship with the circus " Fatimah Adil, 6H

"I enjoyed learning about Pablo Fanque, especially the fact he was a legendary British equestrian performer and the first recorded Black Circus owner in Britain" Manikanta Madur, 6H

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Commendations

Commendations are awarded, each week, to children who have demonstrated the 5Cs in all aspects of school life.

Citizen of the Week

Many congratulations to our *Citizens of the Week*. These children have demonstrated, throughout the week, the qualities of a great citizen – considerate, caring, concern for others, generosity of spirit. These children go the extra mile to support other children and adults in class and in all aspects of school life. We are enormously proud of them.

Science Awards

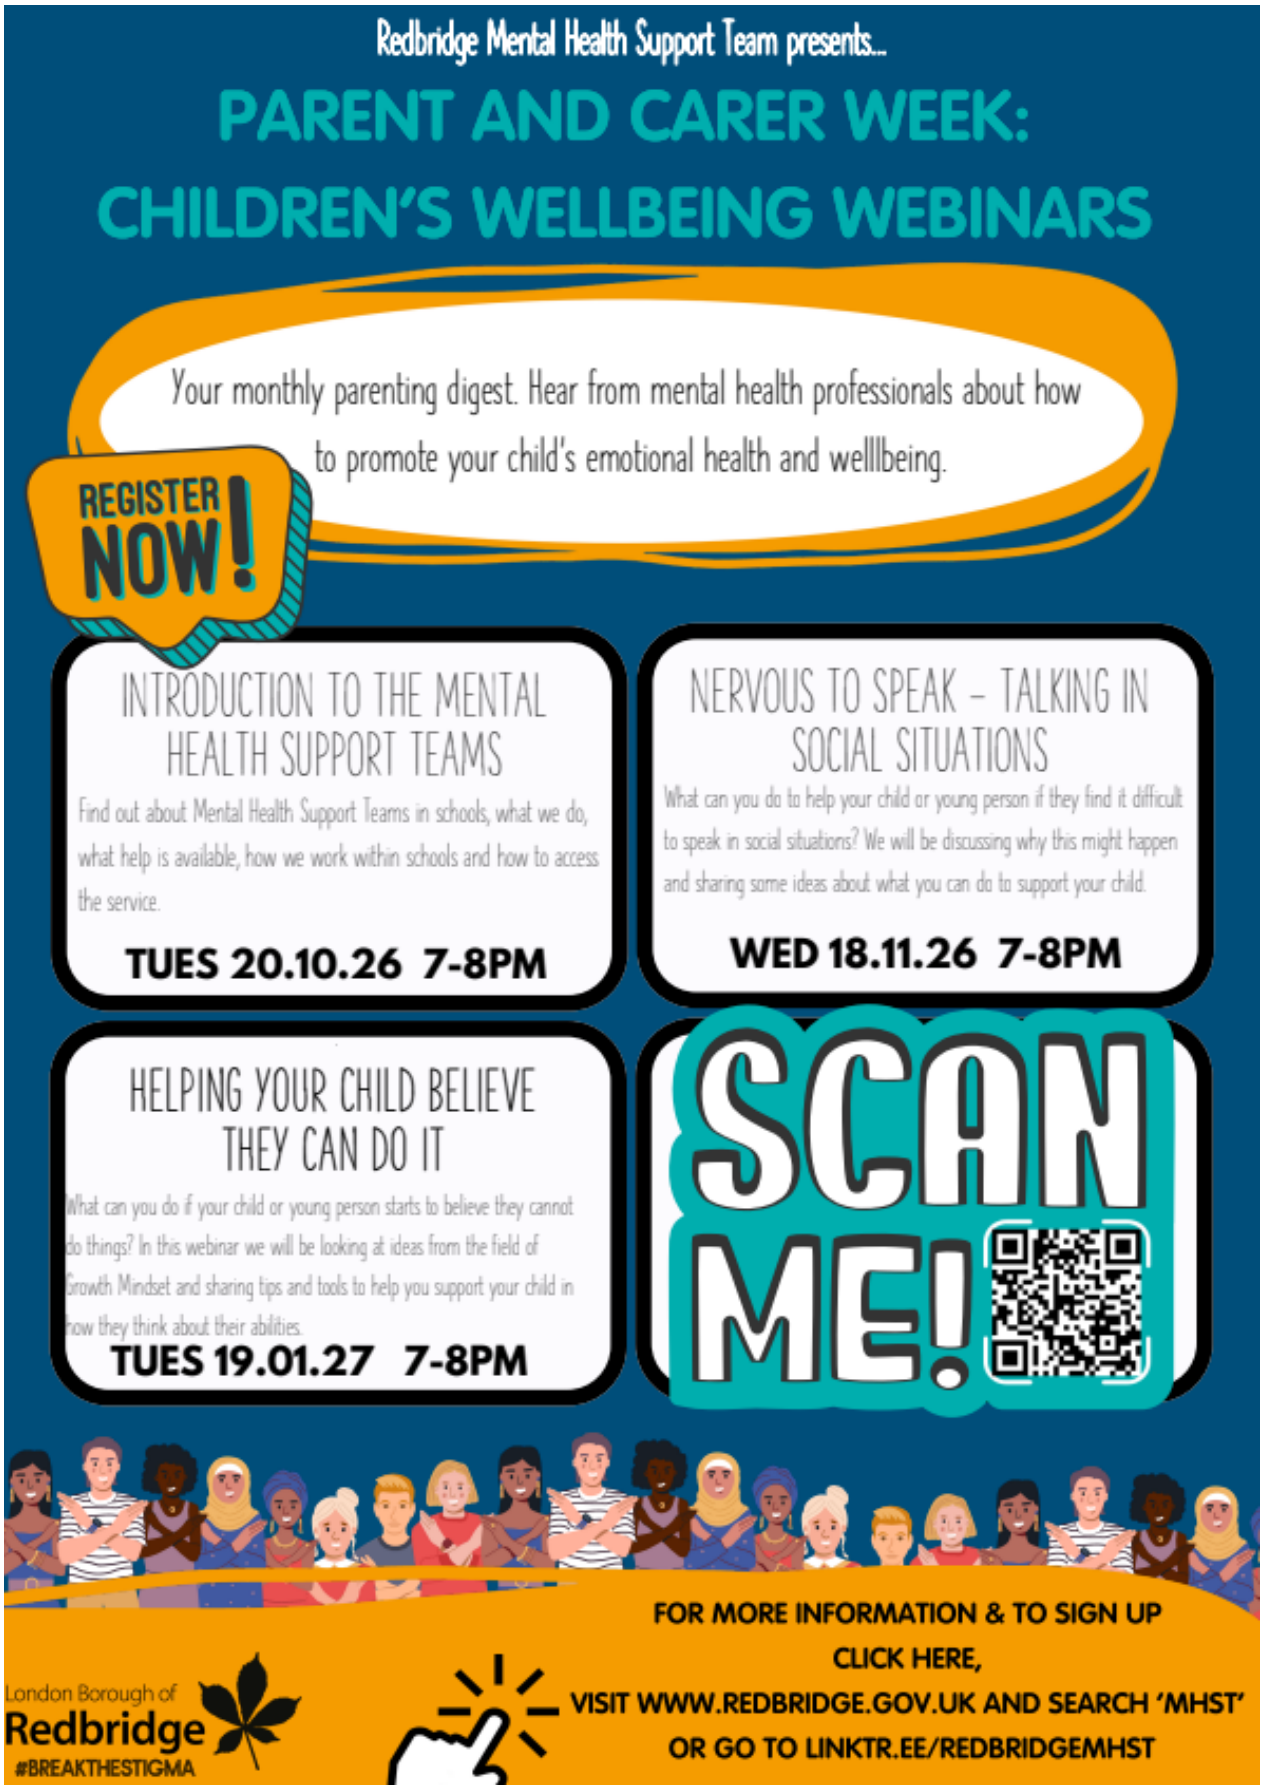

Well done to the children who have been nominated for a Science Award due to their exceptional work and efforts in Science.

Week Beginning 19th October 2026		
Year	**Name**	
Year 2	Ava Islam	Ava has been awarded the Science award for showing fantastic curiosity and understanding when investigating the properties of everyday materials. She was able to make thoughtful connections between the properties of a material and its everyday uses, explaining why glass is suitable for windows because it is transparent and why wood would not be suitable for a window when a clear view is needed because it is opaque. She observes materials carefully, compares their properties and explains her thinking using scientific vocabulary. Keep exploring and asking those brilliant scientific questions.
Year 3	Sudais Faheer	Sudais has been presented with this Science award for demonstrating his fantastic understanding of bones and musckes in our body. He confidently explained the purpose of each of these bones and how important they are within the human body. Well done Sudais, keep this up!
Year 4	Ibrahim Ali	Ibrahim Ali has been presented this Science Award for demonstrating Exceptional Scientific Enquiry during our Year 4 investigations into Gas Particles in Liquids. Recently, our class has been acting as particle physicists, diving deep into States of Matter. Ibrahim took exceptional interest in how gas particles behave when they are trapped inside liquids. Ibrahim, you have shown the mind of a true chemist by masterfully explaining how gases interact with liquids. From breaking down the chemical components of water (H2_0) and exploring the pressure of carbon dioxide (CO_2) in fizzy drinks, to identifying shaving foam as a complex colloid, your particle knowledge is outstanding. Your brilliant explanation of how dissolved oxygen keeps aquatic life alive by flowing through fish gills was absolute top-tier science. Keep questioning, exploring, and discovering!
Week Beginning 2nd November 2026		
Year	**Name**	
Year 1	Rubab Fatima	Rubab has been presented this award for her excellent work on our topic 'Seasonal Change'. She thoughtfully compared all four seasons and confidently explained how the weather and environment change throughout the year. She also demonstrated a great understanding of how some animals migrate or hibernate during the colder months. She has shown wonderful curiosity, enthusiasm and a keen interest in learning about the world around her. Well done Rubab!

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*

Year 5	Nuh Islam	The Science award this week goes to Nuh. He is an inquisitive scientist who is always asking questions about our topic in Science "Living Things and Their Habitats". He always shows great interest in our learning and approaches scientific activities with curiosity. He is able to distinguish between the different types of mammals and what makes them different from one another, and has also been linking this year's learning with prior learning about living things from year 4.
Year 6	Trisha Mavani	Trisha Mavani in 6S has been presented with a Science Award for showing great interest in science lessons and participating in class discussions with enthusiasm. Trisha has independently done research on Charles Darwin and has designed a fantastic poster about his Theory of Evolution. Trisha takes pride in her work and the mind map in her science book shows her brilliant understanding of the topic and her curiosity to learn more. Well done!

Thought for the Fortnight 'Develop a passion for learning. If you do, you will never cease to grow.'

Commendations: *Commendations are awarded to pupils who demonstrate the 5Cs consistently.*
